Overview

We are a human capital management (“HCM”) platform that provides real-time business intelligence along with HR services on a fee-based “software as a service” (“SAAS”) business model. We provide human resources, employment compliance, insurance related, payroll, and operational employment services solutions for our business clients (“clients” or “operators”) and shift work or “gig” opportunities for worksite employees (“WSEs” or “shiffters”). As consideration for providing these services, we receive administrative or processing fees as a percentage of a client’s gross payroll, process and file payroll taxes and payroll tax returns, provide workers’ compensation coverage and administration related services, and provide employee benefits. The level of our administrative fees is dependent on the services provided to our clients which ranges from basic payroll processing to a full suite of human resources information systems (“HRIS”) technology. Our primary operating business metric is gross billings, consisting of our clients’ fully burdened payroll costs, which includes, in addition to payroll, workers’ compensation insurance premiums, employer taxes, and benefits costs.

Our goal is to be the best online fully-integrated workforce solution and employer services support platform for lower-wage workers and employment opportunities. We have built an application and desktop capable marketplace solution that allows for workers to access and apply for job opportunities created by our clients and to provide traditional back-office services to our clients as well as real-time business information for our clients’ human capital needs and requirements.

We have designed our business platform to evolve to meet the needs of a changing workforce and a changing work environment. We believe our approach and robust technology will benefit from the observed demographic workplace shift away from traditional employee/employer relationships towards the increasingly flexible work environment that is characteristic of the gig economy. We believe this change in approach began after the 2008 financial crisis and is currently being driven by the labor shortage created out of the COVID-19 economic crisis. We also believe that a significant problem underpinning the lower wage labor crisis is the sourcing of workers and matching temporary or gig workers to short-term job opportunities.

We have built our business on a recurring revenue model since our inception in 2015. Our initial market focus has been to monetize a traditional staffing services business model, coupled with developed technology, to address underserved markets containing predominately lower wage employees with high turnover, including the light industrial, food service, restaurant, and hospitality markets.

Although we have recently expanded into other industries, as noted below, for our fiscal year ended August 31, 2021 (“Fiscal 2021”), our primary focus was on clients in the restaurant and hospitality industries, market segments traditionally characterized by high employee turnover and low pay rates. We believe that these industries will be better served by our HRIS technology platform and related mobile smartphone application that provides payroll and human resources tracking for our clients. The use of our HRIS platform should provide our clients with real-time human capital business intelligence and we believe will result in lower operating costs, improved customer experience, and revenue growth. All of our clients enter into service agreements with us or one of our wholly-owned subsidiaries to provide these services.

We believe that our value proposition is to provide a combination of overall net cost savings to our clients, for which they are willing to pay increased administrative fees that offset the costs of the services we provide, as follows:

- Payroll tax compliance and management services;
- Governmental HR compliance such as for Patient Protection and Affordable Care Act (“ACA”) compliance requirements;
- Reduced client workers’ compensation premiums or enhanced coverage;
- Access to an employee pool of potential qualified applicants to reduce turnover costs;
- Ability to fulfill temporary worker requirements in a “tight” labor market with our intermediation (“job matching”) services; and
- Reduced screening and onboarding costs due to access to an improved pool of qualified applicants who can be onboarded through a highly advanced, efficient, and virtually paperless technology platform.

We believe that providing this baseline business, coupled with our technology solution, provides a unique, value-added solution to the HR compliance, staffing, and scheduling problems that businesses face. Over the past eighteen months, in the face of the COVID-19 pandemic, we have instituted various growth initiatives that are designed to accelerate our revenue growth. These initiatives include the matching of temporary job opportunities between workers and employers under a fully compliant staffing solution through our HRIS platform. For this solution to be effective, we need to obtain a significant number of WSEs in concentrated geographic areas to fulfill our clients’ unique staffing needs and facilitate the client-WSE relationship.

The Private Placement

On August 31, 2021, we entered into a Securities Purchase Agreement with Armistice Capital Master Fund Ltd. (“Armistice”), pursuant to which we issued and sold, in a private placement (the “Offering”), an aggregate of (i) 2,850,000 shares (the “Shares”) of Common Stock, together with warrants (the “Common Warrants”) to purchase up to 2,850,000 shares of Common Stock, and (ii) 4,673,511 pre-funded warrants (the “Pre-funded Warrants”) with each Pre-funded Warrant exercisable for one share of Common Stock, together with Common Warrants to purchase up to 4,673,511 shares of Common Stock (collectively, the “Offering”). Each share of Common Stock and accompanying Common Warrant was sold together at a combined offering price of \$1.595, and each Pre-funded Warrant and accompanying Common Warrant was sold together at a combined offering price of \$1.5949. The Pre-funded Warrants are immediately exercisable, at a nominal exercise price of \$0.0001, and may be exercised at any time until all of the Pre-funded Warrants are exercised in full. The Common Warrants have an exercise price of \$1.595 per share, are immediately exercisable and expire five years from the effective date of this registration statement.

In connection with the Offering, we entered into a Placement Agent Agreement with A.G.P./Alliance Global Partners (the “Placement Agent”), pursuant to which the Placement Agent acted as the exclusive placement agent in connection with the Offering. Pursuant to the Placement Agent Agreement, we agreed to pay the Placement Agent a fee equal to 7.0% of the aggregate gross proceeds from the Offering. In addition to the cash fee, we agreed to issue to the Placement Agent warrants to purchase an aggregate of up to five percent (5%) of the aggregate number of Shares and shares of Common Stock issuable upon exercise of the Pre-funded Warrants sold in the Offering (the “Placement Agent Warrants” and, together with the Common Warrants and the Pre-funded Warrants, the “Warrants”). The Placement Agent Warrants are exercisable for a period commencing six months from issuance and expiring four years from the effective date of this registration statement, and have an initial exercise price of \$1.7545 per share.

In connection with the Offering, we are obligated, among other things, to (i) file a registration statement with the SEC within 15 days following the closing of the Offering for purposes of registering the Shares and the shares of Common Stock issuable upon exercise of the Warrants, including the Pre-funded Warrants and the Placement Agent Warrants, for resale by the selling shareholders, (ii) use our commercially reasonable best efforts to have the registration statement declared effective within sixty (60) days after closing of the Offering (or ninety (90) days after the closing of the Offering if the registration statement is reviewed by the SEC), and (iii) maintain the registration until the selling shareholder no longer hold any Shares or Warrants, including Pre-funded Warrants and Placement Agent Warrants.

As described in detail below, a portion of the proceeds of the Offering has been devoted to our funding activities in connection with our sponsorship, through one of our wholly owned subsidiaries, of Industrial Human Capital, Inc. (“IHC”), our special purpose acquisition company, or “SPAC,” which consummated its initial public offering on October 22, 2021. We expect to devote a portion of the proceeds from the exercise of any warrants issued pursuant to the Offering to funding IHC’s initial business combination (“IBC”), as detailed below. We believe that IHC, upon completing its IBC, will have a material positive impact on our results of operations. Nevertheless, the failure of IHC to complete its IBC would likely have a material adverse effect on our results of operations and future results. For further discussion, please refer to the “Risk Factors”, below, including the discussion under the heading “*There is no guarantee that our current cash position, expected revenue growth and anticipated financing transactions will be sufficient to fund our operations for the next twelve months. Our sponsorship of IHC requires significant capital deployment, entails certain risks and may not be successful, which would likely have a material adverse effect on our future expansion, revenues, and profits.*”

The foregoing descriptions of the Purchase Agreement, the Placement Agent Agreement, the form of Warrant and the form of Pre-funded Warrant are not complete and are subject to and qualified in their entirety by reference to the Purchase Agreement, the form of Warrant and the form of Pre-funded Warrant, respectively, copies of which are attached as Exhibits 10.1, 10.2, 4.1 and 4.2, respectively, to the Current Report on Form 8-K dated August 31, 2021, and are incorporated herein by reference

Recent Developments

Warrant Exercise

On January 26, 2022, we entered into a Warrant Exercise Agreement (the “Exercise Agreement”) with Armistice to cash exercise certain of their warrants to purchase up to an aggregate of 4,948,453 shares of Common Stock (the “Existing Warrants”). The Existing Warrants were initially issued on May 17, 2021 with an exercise price per share of \$2.425, were immediately exercisable and were set to expire on June 15, 2026. Pursuant to the Exercise Agreement, to induce Armistice to cash exercise the Existing Warrants, (i) the exercise price per share of the Existing Warrants was reduced to \$1.20 and (ii) we issued Armistice a new warrant to purchase up to an aggregate of 9,896,906 shares of Common Stock (the “New Warrant”), with such New Warrant to be issued on the basis of two New Warrant shares for each share of the Existing Warrant that is exercised for cash (the “Warrant Exercise”). The New Warrant has an exercise price per share of \$1.55, is exercisable commencing July 28, 2022 and is set to expire on July 28, 2027. We received aggregate gross proceeds of approximately \$5.9 million from the cash exercise of the Existing Warrants. The Existing Warrants and the underlying shares of Common Stock were registered pursuant to our Registration Statement on Form S-3 (File No. 333-256834), filed with the SEC under the Securities Act of 1933, as amended (the “Securities Act”), on June 4, 2021, and declared effective on June 15, 2021.

Vensure Litigation

On September 7, 2021, Shiftable HR Acquisition, LLC, a wholly-owned subsidiary of Vensure Employer Services, Inc. (collectively, “Vensure”), filed a complaint (the “Complaint”) in the Court of Chancery of the State of Delaware asserting claims against us for breach of contract and declaratory judgment arising from the January 2020 Asset Purchase Agreement (the “APA”) between Vensure and us, pursuant to which Vensure purchased certain assets from us for total consideration of \$19 million in cash, with \$9.5 million to be paid at closing, and the remainder to be paid in 48 equal monthly installments (the “Installment Sum”). The Complaint does not specify the amount of damages sought and, in any event, we believe that, even if Vensure were to prevail, the amount recoverable would be less than the Installment Sum due to us under the APA but unpaid to date after offsetting any such recovery. Nevertheless, we deny Vensure’s claims and intend to defend the lawsuit vigorously while pursuing recovery of the unpaid Installment Sum from Vensure. Accordingly, on November 4, 2021, the Company filed its Answer and Counterclaim to Vensure’s Complaint, in which it not only denied Vensure’s claims, but also asserted counterclaims for breach of contract and tortious interference with contract.

May 2021 Private Placement

On May 13, 2021, we entered into a Securities Purchase Agreement with Armistice, pursuant to which we issued and sold, in a private placement (the “May Offering”), an aggregate of (i) 2,320,000 shares (the “May Shares”) of Common Stock, together with warrants (the “May Common Warrants”) to purchase up to 2,320,000 shares of Common Stock, and (ii) 2,628,453 pre-funded warrants (the “May Pre-funded Warrants”) with each May Pre-funded Warrant exercisable for one share of Common Stock, together with May Common Warrants to purchase up to 2,628,453 shares of Common Stock. Each share of Common Stock and accompanying May Common Warrant was sold together at a combined offering price of \$2.425, and each May Pre-funded Warrant and accompanying May Common Warrant was sold together at a combined offering price of \$2.4249. The May Pre-funded Warrants were immediately exercisable, at a nominal exercise price of \$0.0001, and may be exercised at any time until all of the May Pre-funded Warrants are exercised in full. The May Common Warrants had an exercise price of \$2.425 per share, were

immediately exercisable and were set to expire on June 15, 2026. The May Common Warrants were exercised in connection with the Warrant Exercise.

In connection with the May Offering, we entered into a Placement Agent Agreement (the “May Placement Agent Agreement”) with the Placement Agent, pursuant to which the Placement Agent acted as the exclusive placement agent in connection with the May Offering. Pursuant to the May Placement Agent Agreement, we agreed to pay the Placement Agent a fee equal to 7.0% of the aggregate gross proceeds from the May Offering. In addition to the cash fee, we issued to the Placement Agent warrants to purchase an aggregate of up to five percent (5%) of the aggregate number of the May Shares and shares of Common Stock issuable upon exercise of the May Pre-funded Warrants sold in the May Offering (the “May Placement Agent Warrants”). The May Placement Agent Warrants are exercisable for a period commencing on November 17, 2021 and expiring June 15, 2025, and have an initial exercise price of \$2.6675 per share.

Sponsorship of Special Purpose Acquisition Companies

On April 29, 2021, we announced our sponsorship, through our wholly-owned subsidiary, ShiftPixy Investments, Inc. (“Investments”), of four SPAC IPOs but have since withdrawn the initial public offering registration statements related to three such SPACs in order to focus on the growth and expansion of our Company and to completing IHC’s IBC. The registration statement and prospectus relating to the IHC initial public offering (“IHC IPO”) was declared effective by the SEC on October 19, 2021, and IHC units (the “IHC Units”), consisting of one share of common stock and an accompanying warrant to purchase one share of IHC common stock, began trading on the New York Stock Exchange (“NYSE”) on October 20, 2021. The IHC IPO closed on October 22, 2021, raising gross proceeds of \$115 million for IHC. In connection with the IHC IPO, we purchased, through Investments, 4,639,102 private placement warrants at a price of \$1.00 per warrant, for an aggregate purchase price of \$4,639,102. IHC currently intends to use the proceeds of the IHC IPO to acquire companies in the light industrial segment of the staffing industry, and our goal is to enter into one or more CSAs with IHC following its IBC. Immediately following the IHC IPO, IHC began to evaluate acquisition candidates. IHC has twelve months to complete its IBC from the closing of the IHC IPO. We currently own, through Investments, approximately 15% of the issued and outstanding stock of IHC.

We expect to invest or otherwise extend capital, through Investments, totaling up to approximately \$6,164,102 in connection with our sponsorship of IHC, including \$25,000 to purchase founder shares (the “Founder Shares”) (previously paid on February 18, 2021), \$4,639,102 to purchase private placement warrants (previously paid on October 22, 2021) and up to \$1.5 million in working capital loans to IHC to finance transaction costs in connection with IHC’s IBC. To date, we have not extended any such working capital loans, nor have we determined the terms upon which any such working capital loans would be extended and/or repaid, though up to \$1,500,000 of such working capital loans extended to IHC may be convertible into private placement warrants of IHC’s post business combination entity, at a price of \$1.00 per warrant at our option. If we extend working capital loans to IHC and it does not consummate its IBC, such working capital loans are unlikely to be repaid.

5

We expect IHC to operate as a separately managed, publicly traded entity following the completion of its IBC, or “De-SPAC”. We anticipate entering into service agreements with IHC’s post business combination staffing entities that will allow it to participate in our HRIS platform. We believe that our sponsorship of IHC focusing upon its IBC within the staffing industry has the potential to generate significant revenues and earnings for us.

We may receive up to approximately \$12.66 million in aggregate gross proceeds from cash exercises of the Warrants, based on the per share exercise price of the Warrants. The holders of the Warrants are not obligated to exercise their Warrants, and we cannot predict whether holders of the Warrants will choose to exercise all or any of their Warrants. We do not currently have financing plans but we expect to obtain additional financing in the form of public or private equity offerings over the next twelve months as described above to extend loans to IHC in connection with its IBC if required.

Our board of directors (the “Board”) recently passed a resolution determining that we should not pursue direct acquisition opportunities at this time, but should instead use available capital that could be used for acquisitions to support our sponsorship of the SPACs, including the acquisition activities being conducted by IHC. As a result, we are devoting a substantial portion of our working capital to supporting the activities of IHC as it progresses toward its IBC, which includes time and expense devoted to evaluating acquisition candidates, conducting due diligence, advancing legal and audit fees, and assisting in the recruitment of top management following De-SPAC. We anticipate that certain of the gross proceeds of any Warrant exercises will support these activities, depending on their timing. Accordingly, we do not believe at present that there is a substantial likelihood that IHC will compete with us for suitable acquisition targets. Further, we do not anticipate that IHC will enter into an IBC with a target business that will be affiliated with us, Investments, or any of our officers or directors. To the extent IHC proposes to enter into a business combination with such an affiliated person or related party, such transaction would be negotiated on an arms’ length basis and be subject to Board and shareholder approvals, as appropriate.

Launch of ShiftPixy Labs

We also announced, in July 2020, our “ShiftPixy Labs” initiative, which includes the development of ghost kitchens in conjunction with our wholly-owned subsidiary, ShiftPixy Ghost Kitchens, Inc. Through this initiative, we intend to bring various food delivery concepts to market that will combine with our HRIS platform to create an easily replicated, comprehensive food preparation and delivery solution. The initial phase of this initiative is being implemented in our dedicated kitchen facility located in close proximity to our Miami headquarters, which we are already showcasing through the distribution of video programming on social media produced and distributed by our wholly -owned subsidiary, ShiftPixy Productions, Inc. If successful, we intend to replicate this initiative in similarly constructed facilities throughout the United States and in selected international locations. We also intend to provide similar services via mobile kitchen concepts, all of which will be heavily reliant on our HRIS platform and which we believe will capitalize on trends observed during the COVID-19 pandemic toward providing customers with a higher quality prepared food delivery product that is more responsive to their needs.

6

Impact of COVID-19

The COVID-19 pandemic continues to provide both business setbacks and business opportunities. Our growth trajectory has been muted by the economic impacts of the COVID-19 pandemic on our core business clients, primarily restaurants and nurse staffing organizations supplying health services not related to COVID-19.

The COVID-19 pandemic has significantly impacted and delayed our expected growth, which we saw initially through a decrease in our billed customers and WSEs beginning in mid-March 2020, when the State of California first implemented “lockdown” measures. Substantially all of our billed WSEs as of February 29, 2020 worked for clients located in Southern California, and were primarily in the QSR industry. Many of these clients were required to furlough or lay off employees or, in some cases, completely shutter their operations. For our clients serviced prior to the March 2020 pandemic lockdown, we experienced an approximate 30% reduction in business levels within six weeks after the first lockdown commenced. Early in the pandemic, the combination of our sales efforts and the tools that our services provide to businesses impacted by the COVID-19 pandemic resulted in additional business opportunities for new client location additions, as did the fact that many of our clients received Payroll Protection Plan loans (“PPP Loans”) under the CARES Act, which supported their businesses and payroll payments during in-store lockdowns. Nevertheless, during the quarter ended May 31, 2020, our WSE billings per client location decreased as many of our clients were forced to cease operations or reduce staffing. On July 13, 2020, the Governor of the State of California re-implemented certain COVID-19 related lockdown restrictions in most of the counties in the state, including those located in Southern California where most of our clients were located. The mercurial nature of the pandemic led to recurring lockdowns through the issuance of additional orders by state and county health authorities that yielded uneven patterns of business openings and closings throughout our clients’ markets, which also experienced significant lockdowns beginning in late November 2020 and through the year-end holiday season as a spike in COVID-19 cases was observed.

The negative impact of these lockdowns on our business and operations continued through our third quarter of Fiscal 2021 in a see-saw pattern, with some improvement observed after the removal of many restrictions in California and elsewhere from March through June 2021, only to be followed by the reimplementation of restrictions in the face of the pandemic resurgence fueled by the spread of the Delta variant of the virus. While the availability of PPP Loans to our clients mitigated the negative impact on our business during the initial stages of the pandemic, we believe that the failure of the government to renew this program exacerbated the deleterious impact of subsequent restrictions and lockdowns on our financial results for Fiscal 2021. We have observed some degree of business recovery as these lockdowns have relaxed and vaccination efforts have accelerated, and we believe that, to the extent that COVID-19 infection rates continue to decrease, and vaccination rates increase, governmental authorities will continue to remove restrictions, which will fuel our clients’ business recoveries. Nevertheless, we remain concerned that the recent resurgence of the virus, in the form of the Omicron variant, could have a material negative impact on our business and results of operations, as could the emergence of additional variants of the virus in the future.

We have also experienced increases in our workers’ compensation reserve requirements, and we expect additional workers’ compensation claims to be made by furloughed employees. We also expect additional workers’ compensation claims to be made by WSEs required to work by their employers during the COVID-19 pandemic. On May 4, 2020, the State of California indicated that workers who became ill with COVID-19 would have a potential claim against workers’ compensation insurance for their illnesses. These additional claims, to the extent they materialize, could have a material impact on our workers’ compensation liability estimates.

Going Concern

As of November 30, 2021, we had cash of \$2.1 million and a working capital deficit of \$11.9 million. We have incurred recurring losses, which has resulted in an accumulated deficit of \$158.1 million as of November 30, 2021. The recurring losses and cash used in operations are indicators of substantial doubt as to our ability to continue as a going concern for at least one year from issuance of the audited financial statements incorporated in our Annual Report on Form 10-K for the fiscal year ended August 31, 2021. Our plans to alleviate substantial doubt are discussed below and elsewhere in our Annual Report on Form 10-K for the fiscal year ended August 31, 2021.

Historically, our principal source of financing has come through the sale of our common stock and issuance of convertible notes. In May 2020, we successfully completed an underwritten public offering, raising a total of \$12 million (\$10.3 million net of costs), and closed an additional \$1.35 million (\$1.24 million net of costs) between June 1, 2020 and July 7, 2020 pursuant to the underwriter’s overallotment. In October 2020, we closed an additional \$12 million equity offering (\$10.7 million net of costs). In May 2021, we raised approximately \$12 million (\$11.1 million net of costs) in connection with the sale of common stock and warrants. More recently, in September 2021, we raised approximately \$12 million (\$11.1 million net of costs) in connection with the sale of common stock and warrants. Our plans and expectations for the next twelve months include raising additional capital to help fund expansion of our operations, including the continued development and support of our information technology (“IT”) and HRIS platform, as well as our activities in connection with our sponsorship of IHC described above. We expect to continue to invest in our HRIS platform, ShiftPixy Labs, our sponsorship of IHC and other growth initiatives, all of which have required and will continue to require significant cash expenditures.

We have been and expect to continue to be impacted by the COVID-19 pandemic, from which we have experienced both positive and negative impacts. Our current business focus is providing human capital and payroll services for the restaurant and hospitality industries, which have seen a reduction in payroll and consequently a reduction in payroll processing fees on a per WSE and per location basis. However, we believe that we provide the means for current and potential clients to adapt to many of the obstacles posed by COVID-19 by offering additional services such as delivery, which have facilitated an increase in our client and client location counts, resulting in recovery of billings lost during the first months of the pandemic. Beginning in June 2020, our billings per WSE and per location improved as lockdowns in its primary Southern California market were lifted. Although the State of California re-implemented lockdowns in November 2020, we believe that many of our clients have modified their businesses after the initial lockdowns to adapt somewhat to these adverse circumstances. Further, the recent acceleration in the roll-out of COVID-19 vaccines throughout California and the entire country has resulted in an easing of business operating restrictions. Nevertheless, if lockdowns resume, our client’s delay hiring or rehiring employees, or if our clients shut down operations, our ability to generate operational cash flows may be significantly impaired.

Risks Associated with Our Business

Our business and our ability to implement our business strategy are subject to numerous risks, as more fully described in the section entitled “Risk Factors” in this prospectus and in our [Annual Report on Form 10-K for the fiscal year ended August 31, 2021](#) (the “Annual Report”), incorporated herein by reference. You should read these risks before you invest in our securities. We may be unable, for many reasons, including those that are beyond our control, to implement our business strategy.

RISK FACTORS

Investing in our securities involves a high degree of risk. You should carefully consider and evaluate all of the information contained in this prospectus and in the documents we incorporate by reference into this prospectus before you decide to purchase our securities. In particular, you should carefully consider and evaluate the risks and uncertainties described below and under the heading "Risk Factors" in the Annual Report. Any of the risks and uncertainties set forth below and in the Annual Report, as updated by annual, quarterly and other reports and documents that we file with the SEC and incorporate by reference into this prospectus, or any prospectus, could materially and adversely affect our business, results of operations and financial condition, which in turn could materially and adversely affect the value of any securities offered by this prospectus. As a result, you could lose all or part of your investment.

Risks Relating to Our Business

There is no guarantee that our current cash position, expected revenue growth and anticipated financing transactions will be sufficient to fund our operations for the next twelve months. Our sponsorship of IHC requires significant capital deployment, entails certain risks and may not be successful, which would likely have a material adverse effect on our future expansion, revenues, and profits.

As of November 30, 2021, we had cash of \$2.1 million and a working capital deficit of \$11.9 million. We have incurred recurring losses, which has resulted in an accumulated deficit of \$158.1 million as of November 30, 2021. The recurring losses and cash used in operations are indicators of substantial doubt as to our ability to continue as a going concern for at least one year from issuance of the audited financial statements incorporated in our Annual Report on Form 10-K for the fiscal year ended August 31, 2021. Our plans to alleviate substantial doubt are discussed below and elsewhere in our Annual Report on Form 10-K for the fiscal year ended August 31, 2021.

Historically, our principal source of financing has come through the sale of our common stock and issuance of convertible notes. In May 2020, we successfully completed an underwritten public offering, raising a total of \$12 million (\$10.3 million net of costs), and closed an additional \$1.35 million (\$1.24 million net of costs) between June 1, 2020 and July 7, 2020 pursuant to the underwriter's overallotment. In October 2020, we closed an additional \$12 million equity offering (\$10.7 million net of costs). In May 2021, we raised approximately \$12 million (\$11.1 million net of costs) in connection with the sale of common stock and warrants. More recently, in September 2021, we raised approximately \$12 million (\$11.1 million net of costs) in connection with the sale of common stock and warrants. Our plans and expectations for the next twelve months include raising additional capital to help fund expansion of our operations, including the continued development and support of our IT and HRIS platform, as well as our activities in connection with our sponsorship of IHC described above. We expect to continue to invest in our HRIS platform, ShiftPixy Labs, our sponsorship of IHC and other growth initiatives, all of which have required and will continue to require significant cash expenditures.

We do not currently have financing plans but we expect to obtain additional financing in the form of public or private equity offerings over the next twelve months as described above to extend loans to IHC in connection with its IBC if required. There is no assurance that IHC will be able to consummate its IBC within twelve months from the closing of the IHC IPO, in which case IHC would cease all operations except for the purpose of winding up. While we believe that IHC, after completing its IBC, will generate significant revenues for us by virtue of entering into CSAs and/or other contractual relationships with us after completing the De-SPAC process, we are unable to rely with certainty on IHC to generate revenue in the future.

We expect to invest or otherwise extend capital, through Investments, totaling up to approximately \$6,164,102 in connection with our sponsorship of IHC, including \$25,000 to purchase Founder Shares (previously paid on February 18, 2021), \$4,639,102 to purchase private placement warrants (previously paid on October 22, 2021) and up to \$1.5 million in working capital loans to IHC to finance transaction costs in connection with IHC's IBC. To date, we have not extended any such working capital loans, nor have we determined the terms upon which any such working capital loans would be extended and/or repaid, though up to \$1,500,000 of such working capital loans extended to IHC may be convertible into private placement warrants of IHC's post business combination entity, at a price of \$1.00 per warrant at our option. If we extend working capital loans to IHC and it does not consummate its IBC, such working capital loans are unlikely to be repaid.

We will lose our entire investment in IHC if it is unable to consummate its IBC. We have withdrawn the initial public offering registration statements of Vital, TechStackery and Firemark in order to focus on the growth and expansion of our Company and to completing IHC's IBC. The combined value of our equity investment in our sponsored SPACs, as carried on the consolidated balance sheet included in the financial statements accompanying our Annual Report on Form 10-K, filed with the SEC on December 3, 2021, is \$47,472,000, which we have computed in accordance with accounting principles generally accepted in the United States, and which constitutes the majority of the carrying value of our total assets as reflected on our consolidated balance sheet; however, we expect our forfeiture of Founder Shares of Vital, TechStackery and Firemark to significantly decrease the value of our equity investment described above. Further, if IHC is unable to consummate its IBC, then our Founder Shares and private placement warrants in IHC will be worthless. Even if IHC is able to consummate its IBC, we can provide no assurance that the value of our equity investment in IHC will not decline significantly based upon a variety of factors, including, without limitation, stockholder and general market reaction to IHC's IBC, redemption requests received from IHC stockholders in connection with any proposed IBC, and IHC stockholder dilution resulting from additional capital raises or other financing transactions undertaken by IHC in connection with its IBC.

We expect our investment in our HRIS platform to continue over the next twelve months regardless of whether we enter into client services agreements with IHC's post business combination entity, and regardless of whether IHC is able to complete successfully the De-SPAC process, as we believe such investments will be necessary to support our existing clients as well as our future organic growth. While we anticipate that these investments will yield benefits to us in the future in the form of increased revenues and earnings, it is likely that such improved financial results will be delayed or otherwise materially impacted if we are unable to enter successfully into client services agreements with IHC's post business combination entity on terms that are beneficial to us, or if IHC is unable to complete its IBC.

We believe that our current cash position, along with our cost controls, projected revenue growth and anticipated financing from potential institutional investors, will be sufficient to alleviate substantial doubt and fund our operations for at least a year from the date of this Form 10-K. If these sources do not provide the capital necessary during the next twelve months, we may need to curtail certain aspects of our operations or expansion activities, consider the sale of additional assets, or consider other means of financing. We can give no assurance that we will be successful in implementing our business plan and obtaining financing on terms that are advantageous to us, or that any such additional financing will be available.

We will lose our entire investment in IHC if IHC does not complete its initial business combination and our officers may have a conflict of interest in determining whether a particular business combination target is appropriate for IHC.

On April 29, 2021, we announced our sponsorship, through Investments, of four SPAC IPOs, but have since withdrawn the initial public offering registration statements of three such SPACs in order to focus on the growth and expansion of our company and to completing IHC's IBC. We purchased Founder Shares in each SPAC, through Investments, for an aggregate purchase price of \$100,000, or \$25,000 per SPAC. The number of Founder Shares issued to us was determined based on the expectation that such Founder Shares would represent 15% of the outstanding shares of each SPAC after its initial public offering (excluding the private placement warrants described below and their underlying securities). We are likely to be able to make a substantial profit on our nominal investment in the Founder Shares of IHC even at a time when IHC's public shares have lost significant value. On the other hand, the IHC Founder Shares will be worthless if it does not complete its IBC. Accordingly, Investments will benefit from the completion of IHC's IBC and may be incentivized to complete an IBC of a less favorable target company or on terms less favorable to stockholders rather than liquidate.

The registration statement and prospectus relating to IHC's IPO was declared effective by the SEC on October 19, 2021, and IHC units (the "IHC Units"), consisting of one share of common stock and an accompanying warrant to purchase one share of IHC common stock, began trading on the NYSE on October 20, 2021. The IHC IPO closed on October 22, 2021, raising gross proceeds for IHC of \$115 million. In connection with the IHC IPO, we purchased, through our wholly-owned subsidiary, 4,639,102 placement warrants at a price of \$1.00 per warrant, for an aggregate purchase price of \$4,639,102. The IHC private placement warrants will be worthless if IHC does not complete an IBC. Each whole private placement warrant is exercisable to purchase one whole share of common stock in each SPAC at \$11.50 per share. Also, as previously disclosed, on February 18, 2021, we invested an aggregate of \$100,000 to purchase Founder Shares in all four of our sponsored SPACs through Investments, though we now intend to forfeit the Founder Shares of Vital, TechStackery and Firemark.

The investment amounts set forth above do not include loans that Investments has extended to our four SPACs. As of the date of this prospectus, Investments has been fully repaid by IHC; however, Investments previously extended loans to Vital, TechStackery and Firemark in an aggregate amount of \$550,000 to cover IPO-related and organizational expenses of each SPAC, including SEC registration, legal and auditing fees, which we do not expect to be repaid.

In addition, we may extend working capital loans to IHC to finance transaction costs in connection with IHC's IBC. To date, we have not extended any such working capital loans, nor have we determined the terms upon which any such working capital loans would be extended and/or repaid. Up to \$1,500,000 of such working capital loans may be convertible into private placement warrants of IHC's post business combination entity, at a price of \$1.00 per warrant at our option. If we extend working capital loans to IHC and IHC does not consummate its IBC, such working capital loans are unlikely to be repaid.

We do not currently have financing plans but we expect to obtain additional financing in the form of public or private equity offerings over the next twelve months as described above to purchase private placement warrants and to extend loans to IHC in connection with its IBC.

The interests of our officers who also serve as officers of IHC, and Mr. Absher, our Chairman and Chief Executive Officer who also serves as Chairman of the Board of Directors of IHC, may influence their motivation in identifying and selecting a target business combination for IHC, completing IHC's IBC and influencing the operation of the business following IHC's IBC.

There is no assurance that IHC will be able to complete its IBC within the next twelve months. While we believe that IHC, after completing its IBC, will generate significant revenues for us by virtue of entering into CSAs and/or other contractual relationships with us after completing the De-SPAC process, we are unable to rely with certainty on IHC to generate revenue in the future.

We expect our investment in our HRIS platform to continue over the next twelve months regardless of whether we enter into CSAs with the SPACs, and regardless of whether IHC is able to complete successfully the De-SPAC process, as we believe such investments will be necessary to support our existing clients as well as our future organic growth. While we anticipate that these investments will yield benefits to us in the future in the form of increased revenues and earnings, it is likely that such improved financial results will be delayed or otherwise materially impacted if we are unable to enter successfully into CSAs with IHC's post business combination entity on terms that are beneficial to us, or if IHC is unable to complete its IBC.

Certain of our officers and directors have potential conflicts of interest arising from our sponsorship activities of IHC.

Our officers may not commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and IHC. All of our officers are engaged with IHC and our officers are not obligated to contribute any specific number of hours per week to our affairs. All of our officers serve as officers of IHC and Mr. Absher, our Chairman and Chief Executive Officer, also serves as Chairman of the Board of Directors of IHC. While we do not believe that the time devoted to IHC will undermine their ability to fulfill their duties with respect to our Company, if the business affairs of IHC require them to devote substantial amounts of time to such affairs, it could limit their ability to devote time to our affairs which may have a negative impact on our operations. The interests of each of these individuals in our Company and IHC may influence their motivation in identifying and selecting a target business combination, completing an IBC and influencing the operation of our business following IHC's IBC.

None of our officers or directors (i) hold any equity interest in IHC, (ii) receive any form of compensation from IHC, or (iii) have any pecuniary interest related to IHC separate and apart from their pecuniary interest in our Company. While Messrs. Absher, Carney and Gans, as officers and/or directors of both our Company and IHC, owe fiduciary duties to each entity, our Board has considered this matter and determined that no disabling conflict of interest has arisen or is likely to arise that would prevent these individuals from discharging their fiduciary duties on behalf of our Company. As a result, our Board has (i) approved our sponsorship of IHC through our subsidiary, Investments, (ii) approved Messrs. Absher, Carney and Gans serving as officers and/or directors of IHC, and (iii) approved the allocation of additional ShiftPixy resources, including financial backing and personnel, for the purpose of supporting the activities of IHC as it pursues its IBC. Further, we do not anticipate that IHC will enter into an IBC with a target business affiliated with us, Investments, or any of our officers or directors. To the extent IHC were to propose a business combination with such an affiliated person or related party, such transaction would be negotiated on an arms' length basis and be subject to Board and shareholder approvals, as appropriate.

If we are deemed to be an investment company under the Investment Company Act of 1940, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to conduct our operating business and our IHC sponsorship activities.

Section 3(a)(1)(C) of the Investment Company Act 1940 (the "1940 Act") defines as an investment company any issuer that is engaged or proposes to engage in the business of investing, reinvesting, owning, holding or trading in securities and owns or proposes to acquire investment securities having a value exceeding 40% of the value of the issuer's total assets (exclusive of Government securities (as defined in the 1940 Act) and cash items) on an unconsolidated basis (the "40% Threshold"). We acquired the Founder Shares on April 22, 2021 and we believe that we exceeded the 40% Threshold on October 19, 2022 in connection with the pricing of IHC's IPO exclusive of Government securities and cash items. Investments acquired 4,312,500 Founder Shares on April 22, 2021 for an aggregate purchase price of \$25,000, or approximately \$0.006 per share. Prior to the pricing of IHC's IPO on October 19, 2021, there was substantial doubt as to whether the IPO would be completed on the proposed terms, or at all, and therefore, the fair market value of the Founder Shares owned by us had significantly less value than \$10.00 per unit, the IPO price. On October 19, 2022, upon pricing of IHC's IPO, the Founder Shares had a market value of \$21,100,000 based on the \$10.00 per unit offering price. Accordingly, we believe that October 19, 2022 is the beginning of the one-year temporary safe harbor under Rule 3a-2 promulgated under the 1940 Act, as described below.

Rule 3a-2 provides a temporary safe harbor from application of the 1940 Act's provisions to certain issuers that are in transition to a non-investment company business. Specifically, Rule 3a-2 deems an issuer that meets the definition of "investment company" in Section 3(a)(1)(A) or 3(a)(1)(C) of the 1940 Act not to be an investment company for a period not to exceed one year, provided that the conditions of the rule are satisfied. Pursuant to Rule 3a-2, the one-year period begins on the earlier of: (i) the date on which an issuer owns securities and/or cash having a value exceeding 50% of the value of such issuer's total assets on either a consolidated or unconsolidated basis; or (ii) the date on which an issuer owns or proposes to acquire investment securities having a value exceeding the 40% Threshold. Accordingly, we believe that our IHC sponsorship activities fall within the safe harbor under Rule 3a-2 of the 1940 Act, which allows a 3(a)(1)(C) investment company (as a "transient investment company") a grace period of one year from the date of classification, to avoid registration under the 1940 Act. The SEC's IM Guidance Update No. 2017-03 (March 2017) specifically states that the "purpose of Rule 3a-2 is to temporarily relieve certain issuers that are in transition to a non-investment company business from the registration and other requirements of the 1940 Act." In that guidance, the Staff of the SEC also acknowledged that the "one-year period for transient investment companies should be available to issuers that have a bona fide intent to be engaged primarily in a non-investment company business." As provided in Rule 3a-2, during the one-year period, the issuer must undertake activities that are consistent with an objective to no longer be an "investment company" by the end of this period. In addition, the issuer's board of directors must adopt a resolution that commits the issuer to undertake activities in order to achieve this objective.

We have withdrawn the initial public offering registration statements of Vital, TechStackery and Firemark in order to focus on the growth and expansion of our company and on the completion of IHC's IBC. We believe that these actions, together with our ongoing operations, evidence our bona fide intent to be engaged primarily in a non-investment company business as soon as is reasonably possible in accordance with the safe harbor provided by Rule 3a-2. Our board of directors has adopted a resolution committing our company to our historical operating business to provide human capital outsourcing solutions, which does not include the business of investing, reinvesting, owning, holding, or trading in securities, and owning or proposing to acquire investment securities. The IHC IPO registration statement and related prospectus include an exception permitting Investments to transfer its ownership in the Founder Shares at any time to the extent that Investments determines, in good faith, that such transfer is necessary to ensure that it and/or any of its parents, subsidiaries or affiliates are in compliance with the 1940 Act. To comply with Rule 3a-2, we intend to sell the Founder Shares or dividend the Founder Shares to our shareholders by October 19, 2022, the end of the one-year period afforded by the safe harbor for transient investment companies under Rule 3a-2. To this end, we have also forfeited our Founder Shares of Vital, TechStackery and Firemark. As a result, we believe that we will not be required to register as an investment company under the 1940 Act.

Notwithstanding the foregoing, the acquisition of additional investment securities, including potentially as a result of making working capital loans to IHC, could be viewed as business activities inconsistent with this requirement.

We expect IHC to operate as a separately managed, publicly traded entity following the completion of its IBC. We anticipate entering into one or more service agreements with IHC post business combination that will allow its clients to participate in our HRIS platform. We believe that focusing upon the successful completion of IHC's IBC within the staffing industry has the potential to generate significant revenues and earnings for us.

If we are deemed to be an investment company under the Investment Company Act of by virtue of our IHC sponsorship activities or based upon a determination that we exceeded the 40% Threshold prior to October 19, 2021, our future activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities, each of which may make it difficult for us to conduct our business and raise working capital.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company with the SEC;
- adoption of a specific form of corporate structure different from our current operating structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations that we are currently not subject to.

If we were deemed to be subject to the 1940 Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to operate our business.

Financial Market Risks

If we are unable to continue to meet the listing requirements of Nasdaq, our common stock will be delisted.

Our common stock currently trades on Nasdaq, where it is subject to various listing requirements including minimum per share prices. On April 4, 2022, we were notified by Nasdaq that we are not in compliance with certain of these listing requirements, and that failure to correct these deficiencies could result in delisting. We believe that we will be able to address Nasdaq's concerns within the timeframe required for continued listing, and that we will then return to being in full compliance with all of its listing requirements. Nevertheless, if we are not able to meet Nasdaq's listing standards in the future, we could be subject to suspension and delisting proceedings. A delisting of our common stock and our inability to list on another national securities market could negatively impact us by: (i) reducing the liquidity and market price of our common stock; (ii) reducing the number of investors willing to hold or acquire our common stock, which could negatively impact our ability to raise equity financing; (iii) limiting our ability to use a registration statement to offer and sell freely tradable securities, thereby preventing us from accessing the public capital markets; and (iv) impairing our ability to provide equity incentives to our employees.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of Common Stock by the selling shareholders named in this prospectus, and the selling shareholders will receive all of the proceeds from this offering.

We may receive up to approximately \$12.66 million in aggregate gross proceeds from cash exercises of the Warrants, based on the per share exercise price of the Warrants.

We intend to use the proceeds we receive from the exercise of the Warrants to fund approximately \$1.5 million working capital loans to IHC to finance transaction costs in connection with IHC's IBC and for general corporate purposes, including working capital, operating expenses and capital expenditures.

The holders of the Warrants are not obligated to exercise their Warrants, and we cannot predict whether holders of the Warrants will choose to exercise all or any of their Warrants. Our expected use of the proceeds from the exercise of the Warrants represents our current intentions based upon our present plans and business conditions. As a result, our management will have broad discretion in the application of the net proceeds, and investors will be relying on our judgment regarding the application of the net proceeds of this offering. In addition, we might decide to postpone or not pursue these certain of these activities if the net proceeds from this offering and the other sources of cash are less than, or do not last as long as, expected. We have no current understandings, agreements or commitments for any material acquisitions or licenses of any products, businesses or technologies. We do not currently have financing plans but we expect to obtain additional financing in the form of public or private equity offerings over the next twelve months to extend loans to IHC in connection with its IBC if required.

(1) Represents the sale of 11,500,000 IHC Units for \$10.00 per unit, each IHC Unit consisting of one share of redeemable IHC common stock and one warrant, with each whole warrant exercisable to purchase one share of IHC common stock at an exercise price of \$11.50 per share, subject to adjustment.

(2) Represents the purchase by us, through Investments as the sponsor of IHC, of 4,639,102 private placement warrants for \$1.00 per warrant, with each whole warrant exercisable to purchase one share of IHC common stock at an exercise price of \$11.50 per share, subject to adjustment, for total proceeds of \$4,639,000 to IHC. \$1,725,000 of such proceeds were allocated to IHC's trust account for prepaid interest payable upon redemption of IHC common stock and \$1,649,000 of such proceeds were allocated for underwriter and professional fees and costs associated with the IHC IPO. The additional paid-in capital associated with the \$4,639,000 private placement proceeds was allocated as follows: (i) \$3,573,000 to IHC common stock subject to possible redemption to maintain minimum equity in IHC and (ii) \$1,066,000 to additional paid-in capital.

(3) On April 22, 2021, IHC transferred a total of 2,000,000 Founder Shares to a third party ("the representative"). The transfer of the Founder Shares created a deferred offering cost because it was deemed to be compensation to the representative. A value of \$4.75 per share was estimated to be the fair value based in comparison to similar transactions. Accordingly, a value of \$9,485,000 was considered an element of offering cost of the IHC IPO. The deferred offering cost was charged to additional paid-in capital upon the completion of the IHC IPO on October 22, 2021.

PLAN OF DISTRIBUTION

Each selling shareholder of the securities and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on The Nasdaq Capital Market or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A selling shareholder may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the selling shareholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The selling shareholders may also sell securities under Rule 144 or any other exemption from registration under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the selling shareholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling shareholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2121; and in the case of a principal transaction a markup or markdown in compliance with FINRA Rule 2121.

In connection with the sale of the securities or interests therein, the selling shareholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The selling shareholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The selling shareholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling shareholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each selling shareholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the securities. The Company has agreed to indemnify the selling shareholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to use commercially reasonable best efforts to keep this registration statement effective at all times until the Investor no longer owns any shares of Common Stock, Warrants or shares of Common Stock issuable upon the exercise of the Warrants.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the Common Stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the selling shareholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the Common Stock by the selling shareholders or any other person. We will make copies of this prospectus available to the selling shareholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

Item 15. Indemnification of Directors and Officers.

Sections 17-16-851 through -856 of the Wyoming Statutes (the “Applicable Statutes”) provide that directors and officers of Wyoming corporations may, under certain circumstances, be indemnified against expenses (including attorneys’ fees) and other liabilities actually and reasonably incurred by them as a result of any suit brought against them in their capacity as a director or officer, if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, if they had no reasonable cause to believe their conduct was unlawful. The Applicable Statutes also provide that directors and officers may also be indemnified against expenses (including attorneys’ fees) incurred by them in connection with a derivative suit if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made without court approval if such person was adjudged liable to the corporation.

Further, Article V of our articles of incorporation, as amended, also provides as follows regarding our indemnification of our directors, officers, employees and agents:

“[t]o the fullest extent permitted by the Wyoming Business Corporation Act or any other applicable law as now in effect or as it may hereafter be amended, no person who is or was a director of the Corporation shall be personally liable to the Corporation or its shareholders for monetary damages for breach of fiduciary duty as a director, except for liability for (A) the amount of financial benefit received by a director to which he or she is not entitled; (B) an intentional infliction of harm on the Corporation or the Shareholders; (C) a violation of Section 17-16-833 of the Wyoming Business Corporation Act; or (D) an intentional violation of criminal law. If the Wyoming Business Corporation Act is amended after the effective date of this Amendment to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent permitted by the Wyoming Business Corporation Act, as so amended.

The Corporation shall indemnify to the fullest extent permitted by the Wyoming Business Corporation Act, as the same may be amended and supplemented from time to time, any and all persons whom it shall have power to indemnify under the Wyoming Business Corporation Act. The indemnification provided for herein shall not be exclusive of any other rights to which those seeking indemnification may be entitled as a matter of law under any Bylaw, agreement, vote of shareholders or disinterested directors of the Corporation, or otherwise, both as to action in such indemnified person's official capacity and as to action in another capacity while serving as a director, officer, employee, or agent of the Corporation, and shall continue as to a person who has ceased to be a director, officer, employee, or agent of the Corporation, and shall inure to the benefit of the heirs, executors and administrators of such person.

Any repeal or modification of this Article V or amendment to the Wyoming Business Corporation Act shall not adversely affect any right or protection of a director, officer, agent, or other person existing at the time of or increase the liability of any director, officer, agent, or other person of the Corporation with respect to any acts or omissions of such director, officer, or agent occurring prior to, such repeal, modification, or amendment.

The Corporation shall have the power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee or agent to another corporation, partnership, joint venture, trust or other enterprise, against any liability asserted against such person and incurred by such person in any such capacity or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against liability under the provisions of this Article V."

Further, Article XIV of our Bylaws also provides as follows regarding our indemnification of our directors, officers, employees and agents:

"The corporation shall indemnify any person acting on its behalf in accord with the law of Wyoming. The indemnification provided hereby shall not be deemed exclusive of any other right to which anyone seeking indemnification thereunder may be entitled under any bylaw, agreement, or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office. The corporation may purchase and maintain insurance on the behalf of any Director, officer, agent, employee or former Director or officer or other person, against any liability asserted against them and incurred by him."

Item 17. Undertakings.

The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

- (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

- (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i), (ii), and (iii) of this section do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)) that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities:

The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

30

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers, and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes that:

- (1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
- (2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of these securities at that time shall be deemed to be the initial bona fide offering.

We have acted as legal counsel to ShiftPixy, Inc., a Wyoming corporation (the “Company”), in connection with the preparation and filing with the Securities and Exchange Commission (the “Commission”) of a Registration Statement on Form S-3, as amended (the “Registration Statement”), under the Securities Act of 1933, as amended (the “Securities Act”). The Registration Statement relates to the registration for resale by the selling stockholders named in the Registration Statement (the “Selling Stockholders”) of up to an aggregate of 15,423,200 shares of the Company’s common stock, \$0.0001 par value per share (“Common Stock”), consisting of (i) 2,850,000 shares of Common Stock issued to the Selling Stockholders on September 3, 2021 (the “Shares”) and (ii) 12,573,200 shares of Common Stock issuable upon the exercise of certain outstanding warrants (the “Warrants”) issued by the Company to the Selling Stockholders on September 3, 2021 (the “Warrant Shares”). This opinion is being rendered in connection with the filing of the Registration Statement with the Commission.

In connection with this opinion, we have examined and relied upon the Company’s Amended and Restated Articles of Incorporation and the Bylaws, each as restated and/or amended to date, and such other documents as we have deemed necessary for purposes of rendering the opinions hereinafter set forth.

In our examination, we have assumed the genuineness of all signatures, the legal capacity of natural persons, the authenticity of all documents submitted to us as originals, the conformity to original documents of all documents submitted to us as certified or photostatic copies and the authenticity of the originals of such copies.

Our opinion is limited to the general corporate laws of the State of Wyoming and we express no opinion with respect to the laws of any other jurisdiction. No opinion is expressed herein with respect to the qualification of the Shares or the Warrant Shares under the securities or blue sky laws of any state or any foreign jurisdiction.

Please note that we are opining only as to the matters expressly set forth herein, and no opinion should be inferred as to any other matters. This opinion is based upon currently existing statutes, rules, regulations and judicial decisions, and we disclaim any obligation to advise you of any change in any of these sources of law or subsequent legal or factual developments which might affect any matters or opinions set forth herein.

Based upon the foregoing, we are of the opinion that (i) the Shares are validly issued, fully paid and non-assessable and (ii) the Warrant Shares, when issued and delivered upon the exercise of the Warrants in accordance with their terms, will be validly issued, fully paid and non-assessable. We understand that you wish to file this opinion with the Commission as an exhibit to the Registration Statement in accordance with the requirements of Item 601(b)(5) of Regulation S-K promulgated under the Securities Act and to reference the firm’s name under the caption “Legal Matters” in the prospectus which forms part of the Registration Statement, and we hereby consent thereto.
